

Aerosmith ACQ Fastener

21st Century Corrosion Protection with PT2000™

Patented

Testing shows the alloy plating technology of PT2000™ to have 3 to 10 times* the corrosion resistance conventionally achieved with electro or hot dip galvanizations.

Aerosmith ACQ Fasteners' distinctive finish offers optimum protection in applications demanding high corrosion resistance.

*comparative results based on averages from over 4 different plating types, in ACQ treated wood, using protocol ASTM B117
